[Yaml-core] Meeting Minutes On 25 May To Review Specification
From: Clark C . Evans <cce@cl...> - 2001-05-25 23:27

```
Several Decisions were made in the May 25
"short" meeting:

  - We are dropping MIME/rfc822 stuff
  - The starting production remains
    a sequence of maps seperated by
    a blank
  - Adding a "binary" scalar type
    using the back tick `
  - Add "" to the escape sequences
  - Change _dnsrev to (whatever)
    for local class names, for now
    remove qualified class names
    (this can be part of the
     class section)
  - Introduce #date and #time built-in
    class types for date and time

Tat's it.

Clark
